

PQ Coilformers with Dual-in-Line Solder-pins.

The coilformers are made in gfr Polyethylene Terephthalate PET of type SKYT.5220FR (long-range temperature +155° C). Pin material: tin bronze, tinned. Maximum solder temperature 350° C for up to 2 sec. (Special materials – for example radiated cross-linked – and designs on request. Dimensions in mm/[inch](#)).

The coilformers with vertical axis are suitable for winding on the latest NC machines. The DIL pin configuration with radial “noses” ensures tension relieved axial binding-on of the wires. “Stand-offs” minimize cold-solder joints into the pcb.

Type	Order-Code	Accessories
Coilformer: PQ 20-16/1k/-6/3.81-2.54-ii/SKYT.5220FR	90360-186	on request
Coilformer: PQ 20-16/2k/-6/3.81-2.54-ii/SKYT.5220FR	N0502-186 	
Solder-pin: z609/ua	73265-212
