

EC Coilformers, Vertical

The coilformers are made in gfr Polyamide PA66 of type p6g (RTI long-range temperature +125°C). Pin material is tin bronze, tinned for solder-pins and brass, tinned for solder-tags.

Maximum solder temperature 350°C, 2 sec.

Special materials – e.g. irradiated cross-linked – and designs on request, dimensions in mm/inch.

The coilformers are suitable for automatic winding on computer controlled machines. The EC solder-tags are for side-wrapping and soldering. Since the lower ends of the solder-tags fit cleanly into the pcb, cold solder-joints are eliminated.

Type	Order-Code	Accessories
Coilformer: ECU 52/ec-/hv/p6g	N0172-024 on request	Clip FK-EC 52
Solder-tag: ecv/wd	75401-261	
Self-tapping screw: DIN 7981-ST 2.9x6.5-F-H	78995-000
