

## H-RG SMD Potting Boxes (fw)

The potting boxes (fw) are made in gfr Polyphenylene Sulfide PPS of type torA504 (RTI long-range temperature +130°C) and are suitable for reflow soldering. Pin material: tin bronze, tinned. Special materials – e.g. irradiated cross-linked – and designs on request, dimensions in mm/[inch](#).

The potting boxes are for surface mounting, as is common f.e. with filter chokes and ISDN transformers. The terminal type fw ensures a defined distance between potting box and pcb. The binding-on / soldering section of the terminal is accessible from the outside, the feet are easily positioned and electrical tests are possible.
