# **NC)RW**F

## **EI, UI Coilformers**

The coilformers are made in Polyamide PA66 gfr, UL 94 HB, temperature for longterm use at +130 °C. The material used is tin bronze, tinned (solder-pins) or brass, tinned (solder-tags).

Maximum solder temperature 350 °C, 2 sec. (Special materials and designs on request, dimensions in mm/inch).

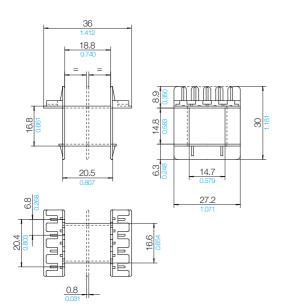

Due to their designs with different connection systems (press-fit pins, bent over pins, soldertags, etc.) the coilformer-versions allow radial as well as axial binding on of the wires, matching your individual fields of application.

We are about to draw up a catalogue of this extensive series step by step - you will find the latest survey of available components on our homepage. For special designs and dimensions as well as available accessories please contact our technical specialists.

## Type

Solder-tag: k3/wb

Coilformer: EJ 48/1k/ww/k3-/6,8-g/p6g Coilformer: EJ 48/2k/ww/k3-/6,8-g/p6g

## **Order-Code**

05240-024 05241-024 72020-257

## Accessories

on request
