

PQ Coilformers with Dual-in-Line Solder-pins.

The coilformers are made in gfr Polyethylene Terephthalate PET of type SKYT.5220FR (long-range temperature +155°C). Pin material: tin bronze, tinned. Maximum solder temperature 350°C for up to 2 sec. (Special materials – for example radiated cross-linked – and designs on request. Dimensions in mm/*inch*).

The coilformers with vertical axis are suitable for winding on the latest NC machines. The DIL pin configuration with radial "noses" ensures tension relieved axial binding-on of the wires. "Stand-offs" minimize cold-solder joints into the pcb.

Type	Order-Code	Accessories
Coilformer: PQ 26-20/1k/-8/jk/SKYT.5220FR	90364-186	on request
Coilformer: PQ 26-20/2k/-8/jk/SKYT.5220FR	N0505-186 	
Solder-pin: z809/ua	73295-212
