

Clips FK-EC

Suitable types of glues, such as Araldite, can be used to put EC cores together. Constant pressure must be maintained on the core-halves until the glue has hardened. More advantageous and economic are the easily assembled clips FK. They are in stainless steel and can be used for both horizontal and vertical assemblies. The clamping pressure on the core-halves remains practically constant regardless of temperature, and no pull is exerted on the coilformer.

Two clips are required per coilformer. A drop of glue may be used to connect coilformer and ferrite, also preventing frequency-noise. Special materials and design on request, dimensions in mm/inch.

When ordering please quote type and order-code.

Type	Order-Code	A	B	C	D	F
FK-EC 35/sa	78984-085	35.5 1.398	22.2 0.874	8.0 0.315	7.0 0.276	6.2 0.244
