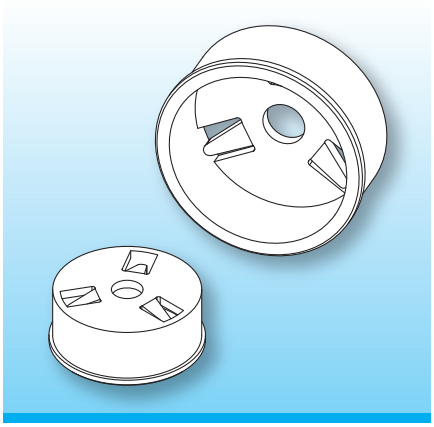
Insulating Caps ID

The insulating caps are made in gfr Polyamide PA66 of type p6g nat. (RTI long-range temperature +125° C).
Special materials – e.g. irradiated cross-linked – and designs on request, dimensions in mm/inch.



The insulating cap together with the connecting board provide mechanical protection for the potcores and electrical insulation. Together they from a compact component for easy pcb-mounting. The design of the Snap-in Cap also eliminates the use of spring-washers.

Type	Order-Code		A	B	C	D	E	F
