

## EI, UI Coilformers

The coilformers are made in gfr Polyamide PA66 of type p6g (RTI long-range temperature +125 °C). Pin material is tin bronze, tinned and tag material is brass, tinned. Maximum solder temperature 350 °C, 2 sec. (Special materials and designs on request, dimensions in mm/[inch](#)).

Due to their designs with different connection systems (press-fit pins, bent over pins, soldertags, etc.) the coilformer-versions allow radial as well as axial binding on of the wires, matching your individual fields of application.

We are about to draw up a catalogue of this extensive series step by step – you will find the latest survey of available components on our homepage. For special designs and dimensions as well as available accessories please contact our technical specialists.

| Type                                      | Order-Code | Accessories |
|-------------------------------------------|------------|-------------|
| Coilformer: EJ 30-15/1k/7-8/5.08-ii/p6g   | 04810-024  | on request  |
| Coilformer: EJ 30-15/7-5k/7-8/5.08-ii/p6g | 04811-024  |             |
| Solder-pin: h810/ua                       | 73496-212  |             |
| Solder-pin: z808/ua                       | 73294-212  |             |
