

EI Coilformers Vertical

The coilformers are made in gfr Polyamide PA66 of type p6g (RTI long-range temperature +125°C). Pin material is tin bronze, tinned or brass, tinned for tags. Maximum solder temperature 350°C, 2 sec. Special materials – e.g. irradiated cross-linked – and designs on request, dimensions in mm/[inch](#).

Due to their designs with different connection systems (press-fit pins, bent over pins, solder-tags, etc.) the coilformer-versions allow radial as well as axial binding on of the wires, matching your individual fields of application. For special designs and dimensions as well as available accessories please contact our technical specialists.
