

## EI, UI Coilformers

The coilformers are made in Polyamide PA66 gfr, UL 94 HB, temperature for longterm use at +130 °C. The material used is tin bronze, tinned (solder-pins) or brass, tinned (solder-tags). Maximum solder temperature 350 °C, 2 sec. (Special materials and designs on request, dimensions in mm/*inch*).

Due to their designs with different connection systems (press-fit pins, bent over pins, soldertags, etc.) the coilformer-versions allow radial as well as axial binding on of the wires, matching your individual fields of application.

We are about to draw up a catalogue of this extensive series step by step – you will find the latest survey of available components on our homepage. For special designs and dimensions as well as available accessories please contact our technical specialists.

| Type                                    | Order-Code | Accessories |
|-----------------------------------------|------------|-------------|
| Coilformer: 2UJ 39-16/1k/1-8/5.0-is/p6g | 08989-024  | on request  |
| Coilformer: 2UJ 39-16/2k/1-8/5.0-is/p6g | 08993-024  |             |
| Solder-pin: h813/ua                     | 73499-212  |             |
