

Side-Wrapping Solder-Tags for PCB-Mounting

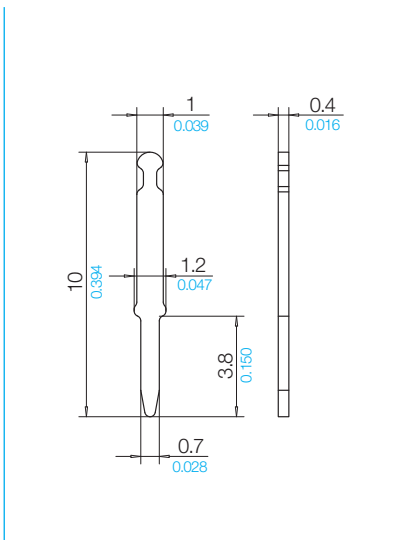

The solder-tags are stamped from strip material and tinned afterwards. The wire-wrapping area is slightly slimmer to avoid wires slipping. At the other end the solder-tags are slightly rounded to allow easier insertion into the pcb.

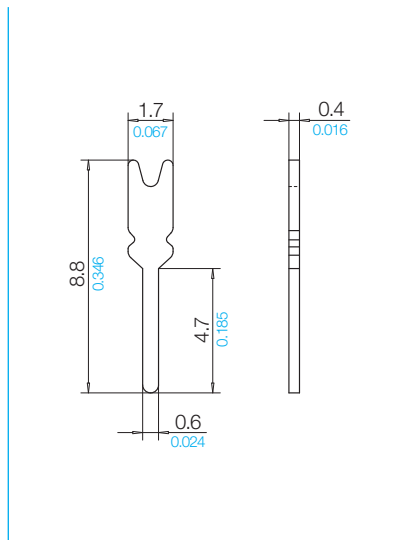

Special pcb-mountig solder-tags can be produced to customers specifications, however, a minimum quantity of 250.000 pieces applies. Special materials and alternative finishes are available on request, dimensions in mm/*inch*.

When ordering please quote type and order-code.
